

THE BOONTON HISTORICAL SOCIETY PRESENTS

– *Our New Changing Exhibit* –

Boontonware®

In 1946 the Boonton Molding Co. began producing its own line of plastic dishes – *Boontonware* – which helped to transform Boonton from an obscure 18th century iron town to a common household name. Its popularity was due to its stylishness, durability, and inexpensive price.

Exhibit on display through December 31st 2025

All are welcome – Admission is free
